New FW package version

We hereby inform you about the release of a new version of the firmware package for electronics of the Model One 100 dental units.

New FW version is available form 09.03.2023

Firmware package v 1.0.5

Changes:

1. In the new FW package 1.0.5, individual FWs will have the following numerical designation.

Item No.	Module name	Firmware number
ME374000.476	MODUL TB_EKO1	1.0.0.1
ME374000.475	MODUL SB_EKO1	1.0.0.1
ME374000.500	MODUL CHES_GREAT	1.0.1.A
ME374000.453	MODUL CHES_GREAT	1.0.1.A
ME374000.454	MODUL FC_PREM_TKC2	1.0.0.C
ME374000.455	MODUL FC_PREM_TUC2	1.0.0.C
ME374000.450	MODUL AB_PREM2	1.0.0.7

2. The new firmware includes the following:

1. Modification of semiautomatic hygiene for Model One – control panel with 7-segment display.
2. Adjustment for workspace and max. Densim micromotor temperature
3. Adjustment for functions of stopping the chair with a joystick when chair moves to the getting on position.
4. The possibility of more precise setting of the torque of the DXPRO micromotor.
