	<b>Change description:</b> Change of the chair position	<b>Change is valid for:</b> Chairs without 3rd movement All Models Pro / One	<b>Technical information</b> <b>No: 003</b>

## Change of the chair position

Hereby we want to inform you about the change in the position of the chair.

The change consists in the overall tilting of the chair in the forward direction. By tilting the chair, we managed to get the backrest into a more vertical position.

By changing the position, we achieved a difference of 6° between the original and new position of the backrest.

A difference of 6° will make the backrest move, measured at the top edge of the backrest, approximately 6 cm.

**Estimated time of introduction of the change: 07/2023**
